

Everything My Child Needs to Know About Sexuality But, I Was Afraid to Tell!

Is based on sixteen areas of sexuality, which should be part of every individual's learning on this topic. Basic body parts to abuse and exploitation will be covered. It will be factual, but fun, with many real life stories that illustrate the perils of having too little, or the incorrect information in this area. Examples will be given that help you get ideas and make a plan to meet the needs of children and their families. There will be no off limit topics, since this presentation will be geared toward teaching teens through adulthood. So come ready with your questions and be prepared for open, and frank, and fun discussion.
